

Keeping #11 Exacto Blades Sharp

by Gerald Sullivan, Editor of Scale Staffel Newsletter, San Diego, CA., July 2004

It is easy to sharpen your #11 eXacto knife blades. The classical sharpening stone method was taken from Lew Gitlow's Indoor Flying Models, page 61. Another way that I have found, since I didn't have a fine grade sharpening stone is to use an ordinary kitchen sharpening steel. A few strokes against the steel will remove any burr edges from your blade....
