MASKING MATERIAL
FROM THE PanTRY

An Idea Published in the January 2010 Issue of Wingtips,
Mike Nassise Editor, who lifted it from Wing Tips

A new plastic wrap that's on the market makes a
great masking medium for painting your models. It's
called Glad Press 'N Seal and it's available in most
supermarkets across the country. What's unique
about this product is that it's sticky on one side so
that it can readily adhere to itself or to the surface
of the model you want paint. It's relatively easy to
work with, clings to model surfaces quite well, but
can be removed without lifting off paint or tearing
up tissue covering (of course this assumes you use
the necessary care needed for this kind of work -
Wingtips Editor)
