

TELESCOPING MOTOR STUFFER

by Bob Overcash

Published in the March 2008 issue of Scale Staffer, Jerry Sullivan, Editor

Purchase a telescopic magnetic pick-up tool with a removable rubber stuffer end. They are available at Harbor Freight for about \$3. Add a super magnet to the end. Different size ends can be made out of wood with a metal washer glued to the end. The washer will center the end piece. Fits any Flight box.
