

Results from 2004 US Free Flight Championships

Greetings to all and let my start by apologizing for the delay in this report. We had a great contest with 120 contestants and made enough money to get a start on next year. I am sure that others will add their own observations of the contest as I was stuck behind the table all weekend. I would like to extend a thank you to Marion Keegan who spent most of Sunday helping me record scores and sort trophies. Her help was greatly appreciated.

The full results are as follows. I have found a couple of mathematical mistakes from what was added on the field but they only resulted in one change of placing, and that being for F1A where the 2nd and 3rd places were reversed as the scores were recorded. Thanks to all who attended and see you all next year.
