**FLYING ACES**

**PREZ SPEAKS  
December 2009**

It's election time again! This coming meeting is important. Please make an effort to be there. Along with electing officers, we need to review our budget and set the dues rate for next year. One other financial detail, is confirming the monetary awards to be given to the winners of this year's joint club contest program. This must also be confirmed by the Tucson Free Flight Club in as much as the funds come from our joint contest account. The contest calendar for 2010 is complete except to confirm who will CD each of the contests. I have assumed everyone who ran a contest this year will be responsible for the same monthly contest in 2010. If you want to change or drop out, please call me ASAP to discuss. The category approach to the events will be used again. It seems to be well accepted at this time.

Our flying field is about to be impacted in a negative way. First of all, the land surrounding the field to the north, west, south and to the east side of Toltec road is all owned by the same investment group. This group has elected to put the land back into active crop land. The irrigation ditch to the north of our primary flying site has been cleared of debris as well as our "bridges" to the field north of our primary field. The irrigation ditch ½ mile south of our primary field has also been cleared. This gives them water to plant crops to our immediate north and immediate south. If it is cotton that is planted our ability to recovery our models that drift off field is going to be very difficult. Until something is planted we can still operate, but the future is not bright. We are working to get a clarification of the situation. Don't forget, the Arizona Free Flight Champs is December 5 & 6. Be there!

**Elmer Nelson and Marv Bashaw**

Bill Sewel brought Marv to the contest. Thanks Bill.  
And another great picture from Wayne Gaylor.
