HAVING FUN WITH MODEL AIRPLANES SINCE 1934 Vol-28 No 4 Apr 2023

**COVER:** Allan Mecham launching one of his electric models most likely for a max against a clear sky of an Arizona spring day.

The day for the March contest looked a bit “iffy” during the days preceding the contest but it turned out to be beautiful. The air was turbulent once you got out of the ground layer and you could watch models getting pushed all over. As it warmed up a bit the turbulence subsided and the big thermals started to show up. Tom lost a model despite lots of help looking for it. Kevin saved me from losing my Gollywock by bringing out his motorcycle in the nick of time ( I was on foot and had just lost sight of the model). Thanks Kevin. the editor

# Prez Speaks

We finally had a good weather forecast for the St Patty's Bash contest. We had 12 sign-ups and lots of flying. It was cool in the morning with no thermals. Later, as it warmed up, the air became more buoyant. I had to relearn an old lesson. My Monogram Prowler received a new stabilizer platform as it had been stalling badly. Several hand launched test glides looked good but I wanted to try a short test flight. I put 300 turns on an old motor, and as it appeared there were no thermals yet I did not hook up the DT. The Prowler climbed up to about 20 feet and the glide was great. Then it found a thermal and flew out of sight! I have lost two Monogram Pirates and now one Prowler. These two models fly very well and are simple to build. They were chosen for a one-design event at the 2001 Nationals. Lee Campbell provided kits with some modifications since the original Monogram kits did not have a DT. He also recommended center spars on the wing and stabilizer. I have plans if anyone wants to build one. Our next contests are the I-10 Challenge on 16 April and the Dome contest 21 thru 24 April. See you there!

### **Some notes on the indoor contest in Arizona.**

The towns of Eagar and Springerville are right next to each other. If not for the sign you would not know when you passed from one to another. The Dome is located in Eagar. The mailing address for the school is in Springerville. Friday evening we will meet at the Trail Riders Restaurant for dinner. Saturday evening we will meet for dinner at a location we decide upon. This will be mainly a social event but subjects related to modeling will be welcome. Be advised that some of the eating establishments have gone out of business due to the economy in Eagar. I will know more about what is available later. After the contest, (Monday morning) a few of us from the Phoenix Model Airplane Club and some of the guys from The Magnificent Mountain Men M.A.C. will be helping the school with an aviation project with the STEM students using the Mountain Lion. The science department and the district superintendent are very enthused as are we. This has been a lot of fun for us as well as the students.

Note: the US and AZ flags are no longer near the crown of the dome. This is a picture taken before the renovation, and the flags were relocated above the area used for flyer tables. The crown area is now clear.

## DIRECTIONS

From the east Take I-40 to exit 89 Go south on Hwy. 117 to Hwy 36. Go South to Quemado. Take Hwy 60 West to Springerville.

From Phoenix Go to Payson and then East to Show Low. From Show Low take Hwy. 60 East to Springerville From the West Take I-40 East to Holbrook Take Hwy. 77 South to Show Low. From Show Low take Hwy. 60 East to Springerville.

In Springerville On Hwy 60 you will come to South Mountain Ave. (there is a McDonalds on the corner) This will become North Main St. Go south to 5th Ave and turn left to the Dome. Go a few blocks East to the Dome. Go past the Dome to the East parking lot. We will use this east entrance. Overnight parking for RVs is OK.

Hello Flyers,  
WESTFAC 2023 is officially on and the staff is planning a great event for us all. Attached is a rough copy of the events for your shrewd planning and building for this winter....which is almost half over, too. The theme will be "**Unlimited Racers**" which will cover anything that raced at Reno as well as the unlimited cross country attempts post-war. This includes the Goodyear racers as well as any machines that were built for the races but never made it to the starting line (the Pond Racer comes to mind). Everybody has a WWII fighter or a T-6 hanging from the ceiling. Dust off that old warhorse, recover it with some new tissue, and decorate it up, and trim it this spring. Don't let the complexity of the paint schemes scare you off as the TOTF event will accept anything that looks close....or even semi-close. There also is a lot of schemes are pretty simple too. Just cruise the internet for some examples. We will have one Mass Launch and one TOTF for the Unlimiteds and the rest of the events are the old favorites. Note that the first two days are open flying for a lot of events and the third day is restricted to a few.

I'd like to personally thank Rich Adams for the fabulous job he has done for years on the website. It is really first class however, he is taking a break and stepping down from the job. As a result, we have a crying need for a new webmaster. Anyone who could volunteer to take over this job would be greatly appreciated and Rich will gladly help the new guy get up to speed on the mechanics of it. Please contact me ASAP as we need to get some items up on the site very soon.

More info to come, but in the meantime keep building them little airplanes.

Here's some candidates:

As you probably know we are manufacturing the Satellite free flight model in all sizes.

We are also in the process of stocking balsa, aircraft plywood, some specialty hard woods and exclusively Satellite City CA glue products.

We consider ourselves a specialty mail-order shop.
