

Phoenix Model Airplane Club

HAVING FUN WITH MODEL AIRPLANES SINCE 1934 Vol-28 No 5 May 2023

RVD Report

So it begins, my home weather station has recorded the first of many days with temperatures exceeding 100°F. We all need to pay extra attention to our hydration as we begin flying in the warm weather. We also need to pay attention to our fellow flyers for signs of heat stress, It would be wise to use sunscreen this time of year since the sun is so intense. Many times the month of May brings some monster thermals so also be hydrated enough for a long chase. the editor

Contest Start Time: 7:30 am

Safety

Heat Illness Prevention

Caution Flags.

These should be obvious. Be alert to these warning signals:

- Environmental temperature s greater that 90 F (inhibit normal transfer of excess body heat).
- Humidity greater than 60% (impedes evaporation of sweat and its related cooling effect).
- Poor conditioning and acclimatization.
- Occlusive clothing that insulates the body and impedes sweat evaporation.
- Pre-existing dehydration due to low fluid intake or medication.
- Diuretics leading to depleted body water (this doesn't imply discontinuing diuretics.)
- Overly strenuous physical activity (most are aware of this but tend to push on).

Summary. Common sense and good judgment are key words to prevention of heat illness. Observe the following rules, on and off the flying field:

- Heat-related illnesses usually occur on the first day or two of a heat wave or extended outing before acclimatization has occurred.
 - Know your physical limits-function with them.
- Drink more than adequate fluids, regularly and throughout the day.
- Model retrieval chases should be motorized, not on foot or alone, if at all possible.
- Ingest fluids freely while on chases.
- Use cell phones or 2-way radios to maintain communications with someone at the launch site; make certain others are aware of your location.
- Stay out of the sun when possible.

[Warning Signal: When you are in the summer heat, keep a check on how often you are feeling the call of nature. If you go more than a couple of hours, you are likely behind on your water intake.-Ed.]

Prez Speaks

We had a great time at the Round Valley Dome Regional Indoor Contest which was sponsored by PMAC. However, participation was down slightly from previous years due to the high price of gasoline and airline fares. This caused many free-flyers to choose one contest rather than multiple ones as in past years. We had contestants from AZ, CO, TX, NM and CA who were all excellent flyers. Friday was a practice day as the contestants arrived. During Saturday and Sunday many official flights and test flights were flown. The Dome had very steady air after all the air handlers were shut down and all the doors closed tight. The event was enjoyed by all the participants and spectators. Two students who came to watch the contest were given "Cadet" catapult glider kits and taught how to build and fly them.

We wish to thank the Round Valley School District for the use of the Dome. It is one of the best indoor free-flight venues in the country. Daniel, the Dome Manager and his two assistants were most helpful.

The Monday student activities went very well with instructors from Phoenix Model Airplane Club and the Magnificent Mountain Men from Colorado.

The middle school science students and their principal all built "Mountain Lion III" models. Once the models were finished the instructors helped the students wind, trim and fly their planes with an emphasis of the basic aerodynamics involved. When the students were ready, a mass launch was held. The students who were the top three in duration each received a laser-cut scale model kit. All the participants received a P-18 kit and a winder.

Judged Scale Events

FAC Power Scale
FAC Jet Catapult

Awards Ceremony on the field,
at the completion of the
B.L.U.R. race

Informal dinner at local restaurant,
self-pay.
Time and place TBD.

General Contest Notes

For Mass Launch events, depending upon the drift, a delayed launch procedure may be used to reduce chase times.

* Special racing events - no wingpan restrictions

Note: If 3 or more flyers have a class of models not shown on the event schedule, check with the CD to see if a special event can be arranged.

Once again, arrangements have been made with the Comfort Suites Hotel in Goodyear for a special room rate of \$109/night.

Call (520) 257-3134, and ask for the Flying Aces Club rate.

Comfort Suites Hotel

15775 West Roosevelt, Goodyear AZ 85338. (520) 257-3134

Hello Flyers,
WESTFAC 2023 is officially on and the staff is planning a great event for us all. Attached is a rough copy of the events for your shrewd planning and building for this winter....which is almost half over, too. The theme will be "**Unlimited Racers**" which will cover anything that raced at Reno as well as the unlimited cross country attempts post-war. This includes the Goodyear racers as well as any machines that were built for the races but never made it to the starting line (the Pond Racer comes to mind). Everybody has a WWII fighter or a T-6 hanging from the ceiling. Dust off that old warhorse, recover it with some new tissue, and decorate it up, and trim it this spring. Don't let the complexity of the paint schemes scare you off as the TOTF event will accept anything that looks close....or even semi-close. There also is a lot of schemes are pretty simple too. Just cruise the internet for some examples. We will have one Mass Launch and one TOTF for the Unlimiteds and the rest of the events are the old favorites. Note that the first two days are open flying for a lot of events and the third day is restricted to a few.

I'd like to personally thank Rich Adams for the fabulous job he has done for years on the website. It is really first class however, he is taking a break and stepping down from the job. As a result, we have a crying need for a new webmaster. Anyone who could volunteer to take over this job would be greatly appreciated and Rich will gladly help the new guy get up to speed on the mechanics of it. Please contact me ASAP as we need to get some items up on the site very soon.

More info to come, but in the meantime keep building them little airplanes.

Here's some candidates:

<http://taichi56jp.g1.xrea.com/?fbclid=IwAR1SAuReHKr1KBIMeCLaL4UVlHgTjz-SK1o1u1n5Rq9O7QJzWemVzj6kE2U#Others>

Yours,

Tom Arnold

As you probably know we are manufacturing the Satellite free flight model in all sizes.

We are also in the process of stocking balsa, aircraft plywood, some specialty hard woods and exclusively Satellite City CA glue products.

We consider ourselves a specialty mail-order shop.
