July - August 2022

The Don Myers Memorial is in the record books. A fair turn-out with 13 Contestants taking the field. As for the weather: at least the rain showers held off. However, the wind went and got itself carried away. Making for some long walks and a long lull Saturday afternoon. Don's Family came out to visit and watch Jim fly some of Don's planes.

I really have very little to say since I was busy trying to cover headquarters and take pictures. Photos were hard to get, I was not fast enough to keep up with the launch style due to the wind and in flight pics are next to none because the model was down-wind in a hurry. I did manage some decent pictures.
