

# Hi-Start Glider Kits and Supplies

There are currently a number of kits available for gliders in the 150-300 sq. inch size range, owing in part to the Classic Towline one-design A1 events of recent years.

## From BMJR:

Thermic 50:

<http://www.bmjmodels.com/thermic-50-y2k> (227 sq. inches)

Jetstream:

<http://www.bmjmodels.com/free-flight/gliders-1/jetstream> (269 sq. inches)
