

## **Announcement of the 2023 NFFS Symposium Team**

The following Free Flighters comprise the NFFS Symposium Team for 2023:

- Editor – Bill Kuhl < [scienceguy33@gmail.com](mailto:scienceguy33@gmail.com) >  
Bill has been an avid free flighter and modeler for many years. From Winona, Minnesota, he has made the 600 mile trip to Muncie to fly and place at the NATs. His desire to give back to the NFFS community is reflected in his acceptance of the editor's role for the 2023 Symposium.
- Hall of Fame Chair – Don DeLoach < [ddeloach@comcast.net](mailto:ddeloach@comcast.net) >  
Don doesn't need much of an introduction as he edits the Digest and has been actively flying since he was 16. Originally from Texas and currently in Colorado, Don has continuously supported the NFFS and Free Flight.
- Model of the Year Chair – Jack Murphy < [jack.murphy@utahhomes.com](mailto:jack.murphy@utahhomes.com) >  
Jack is originally from the Minneapolis Model Aero Club and migrated to Utah and is currently a member of the Magnificent Mountain Men FF Club in Colorado. Jack's is well-known for his involvement in Electric FF and his many achievements in that arena.

Now is the time for thinking about pertinent subjects and selections regarding Free Flight for 2023. This is your symposium and opportunity to celebrate advancements and trends in free flight modelling and present them to the community.
